

THE InSPEKTOR's Report

GENERAL • COSMETIC • PERIODONTAL DENTISTRY

Early
Summer
2020

Dear Spektor Dental Friends & Family,

Summer is here! It may not be the same as summers we've known before, but we'll all enjoy the longer, brighter days. During our extra downtime, we revamped our website. We simplified the design and added lots of informative content and videos. Join us in a big shout out to our wonderful Spektor Dental patients for sharing their beautiful, vibrant smiles with the world! Please visit **Spektor Dental's refreshed website** and tell us what you think.

We're here. And ready for care when you are.

After months of quarantine, we understand you might be hesitant to venture out again. Fast Company (6/15, Cohen) reported a new study from MIT that places visiting the dentist as 'worth it.' The study weighed risk-benefit profiles for various businesses, factoring in essential value to consumers and the economy, as well as relative risk of contracting COVID-19. Banks, dentists, colleges and universities rank highest as the "most essential and safest" businesses you can visit during the pandemic. You can **read the study** published by the Proceedings of the National Academy of Sciences.

So, as you prioritize where you'll venture out this summer, remember that oral health is essential for your overall health. It's a new world, but we adapt! And we do everything we can to protect our patients and staff. Your health, safety and comfort are always our top concern. Please give us a call with any questions or to schedule an appointment:

(425) 454-1322.

Be happy and be well!

Your Spektor Dental team
